CHANGE INFORMATION	
<p>The Geospatial Subcommittee would like to request a review of task book for the GISS position. The current task book is outdated and is not consistent with the NWCG Standards for Geospatial Operations PMS 936 and NWCG GISS Workflow PMS 936-1. Supporting information is contained in the GISS Position Issue Brief developed by GSC. GSC is working with the NWCG Publications group to create a properly formatted task book, but the document supplied contains the full text of the task book. GSC requests that IPSC review and adopt the new task book.</p> <p>The updated task book and issue brief has been sent to the NWCG Webmaster.</p>
