

TAKE AIM TO PREVENT WILDFIRES

TAKE THIS
TARGET TO
THE RANGE!

SHOOTING CAN CAUSE WILDFIRES

KNOW THE FACTS

- Fires caused by target shooting are increasing in frequency.
- Cheatgrass ignites at 660°F.
- Bullet fragments reach 1400°F.
- A bullet striking a hard surface will fragment and can ignite nearby vegetation.

DO YOUR PART

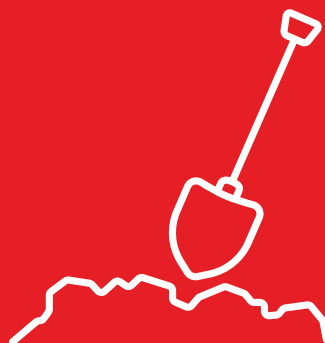

Don't shoot into rocks or metal objects and place targets in areas free of vegetation.

Exploding targets, incendiary rounds and tracer ammunition are illegal on all public lands.

Choose not to shoot on hot, dry and windy days.

Always have water, a shovel and a fire extinguisher ready in case a fire starts.

Clean up all your targets and shells when you're finished shooting and pack them out.
