NWCG IT Business Needs
July 2024

NWCG Committee	IT Business Need	WFIT Submission Date	NWCG Priority
RMC	**SAFENET:** Risk management capabilities, related to safety reporting. Resolve overlaps, gaps, and inconsistencies. Need to define requirements. SAFENET Improvements: correcting some language on the website, trying to streamline our posting process and make the "outputs" more useful for RMC to identify emerging issues and trends.	June 2023	1
IPSC/IPS	**Electronic Check-in:** Development of eCheck-In, eDemob and eExtensions. See NWCG Exec Board memo 21-003, Incident Management Remote Response Electronic Check-In Pilot Project.	Aug 2021	2
NCSC	**Dispatch Cost Analysis Tool (DCAT):** A standard process to assess workload and budget for dispatch/coordination centers. Identified as high priority by the NCSC and the IDIP study. Work of a task team supported by NWCG (March 2018) and FMB (April 2018). NWCG Exec Board support for DCAT tool in Oct 2023.	Oct 2023	3
DMC	**EDG Database:** Data integration services, with focus on a "data cache." See NWCG Data Management Strategy, WFIT Data Cache Requirements Document, IFDC Alternatives Analysis, and DMC Recommendations for Data Cache. DMC is evaluating the use of EDG as the tool to support a Data Cache.	2020	4
NCSC	**Integrated OAT Training Environment:** The intent of this project is to create a replica of the IRWIN production environment along with all the connected applications to allow end-to-end user practice/training for all the connected wildland fire applications. This system would allow employees to train in an end-to-end incident lifecycle workflow utilizing all the IRWIN integrated applications without impacting any of the production environments, during normal day to day operations.	Aug 2023	5
IBC/IPS	**e-ISuite Improvements:** Functionality improvements, incorporating the use of eCheck-In, eDemob and eExtension in support of incident management.	In Committee Review	6
