---

## TOPIC

### Review Current Actions:

#### Data Collection

- CGAC Data Call: 2024 IMT Composition
  - Requested this year's data from CGAC, still haven't received.

#### Open Tasking Updates

- CGAC Taskings: NMAC has re-issued a letter requesting clarification/additional information on responses to the two taskings that remain open.
  - NMAC L2023-09: Establishing Standard Criteria for Geographic Area Preparedness Levels
  - NMAC L2023-10: Standard Alignments for Geographic Area Priority Trainee Programs
- NMAC L2023-02: Increasing Incident Support Capabilities Tasking
  - Waiting for NMAC to provide feedback to last year's initial response and to schedule a briefing for the second, draft response.
- NMAC L2024-10: Tasking – Development of National Rotation Recommendations for 2025
  - NMAC requested CGAC recommend updates to the national rotation with guidelines.
    - CGAC requested input from ICAC, who is meeting this week.

#### Complex Incident Management Implementation

- AAR Recap
  - There were many polar opinions for each piece of CIM implementation.
  - Focus on middle ground implementation to ensure balance of pros and cons.
  - Clearly recognize and message that CIM will not be reverting back to Type 1 and Type 2.
  - T3 team configuration and operations have become a top priority for NMAC.
- IPSC Updates
  - Archival of Type 2 and 1 Positions
    - NWCCG agreed to archiving the positions from the PMS 310-1 in January 2026.
    - Need additional clarity regarding training allowances and pathways after the archival.
  - IPSC has asked for an agenda item on the ICCI pathway in December.
    - IWDG members be prepared to discuss and provide an IWDG perspective on options.
  - IMT Course Steering Committee
    - Beta course occurring this week.
    - Concern with including outdated forms and processes within the new course.

- Considering most efficient delivery method for optimal learning and ways to keep the content fresh and current into the future, avoiding content stagnation.
- Feedback
  - Archive CIM feedback received over summer 2024.

**Agenda Items:**

- CIMT Standards
  - Waiting for further direction from NMAC to proceed.
  - ICAC does have a full day on agenda to discuss; look for report out in December.
- Type 3 Standards and Roster Configuration
  - Recommendation due to NMAC mid-January 2025.
  - Develop a small task team to work on foundational recommendations to present to NMAC for 2025 implementation: Russ Lane, Jim Prevette, Carl Schwope, and Type 3 IC representatives.
- CIMT Roster Configuration
  - Recommendation due to NMAC mid-January 2025.
  - NMAC will be issuing a formal tasking.
  - Form a small task team to work on: Aaron Thompson, Zeph Cunningham, Patrick Pearson
- January Meeting: Location and Dates
  - NMAC/CGAC is meeting the same week, January 27.
  - Support to meet in same location for collaboration with them. Should know more in next week and can set logistics.
