Topic & Notes	Decision
Welcome	
PSOG <ul style="list-style-type: none"> • Main concerns: <ul style="list-style-type: none"> ○ Staffing across geographic areas does not have a national standard. ○ Aggregating geographic area data is difficult without national coordination. ○ Data for input into data programs is not standardized. • Discussion of how to achieve the goals. Is it better to create standards first or assign personnel? 	Overall, request is to hold until some of political situation settles. In the meantime, suggestions are: <ul style="list-style-type: none"> • While awaiting pending legislation, i.e. Save Our Forests: Add a data center rep and WFIT rep to PSOG. • Use Predictive Services Handbook and add standards to make it more of guidance, i.e. Red Book.
IWDG <ul style="list-style-type: none"> • Workforce development specific to incident positions • Revisit priorities for management. Add seasonality for focus of IWDG, ie NMAC support for team rotations during fire season 	Look at potential future needs for IWDG, include looking at ways to find limits of workload, explore alternative ideas as well as unanticipated consequences.
FWDP <ul style="list-style-type: none"> • Need discussion within DOI of apprentices and NWCG funding. 	
Fatigue Management <ul style="list-style-type: none"> • Discussion on MPHAT's involvement in creating and researching as far as the workload distribution. 	Support moving memo forward.
