

US Wildland Fire Service – Division of Aviation Standards

Return to Contract Availability (RTCA) Inspector Contact List

All Aircraft or Equipment

***Always start with the inspector listed on the aircraft card (located in the aircraft). It is preferred that if you are on a DOI/USWFS controlled contract you contact a DOI/USWFS inspector. The same goes for if you are on a USFS controlled contract that you contact a USFS inspector with the USFS.**

If unable to contact your primary inspector as listed on the aircraft card, any inspector listed below may give conduct an RTCA and return the aircraft to contract availability.

When calling any inspector and no contact is made, please leave a detailed message with your contact information. Please allow sufficient time (30 minutes) for that inspector to call you back before trying another inspector. If contact is made with an inspector other than your primary inspector, please inform both inspectors that another was contacted. This is to avoid multiple inspectors being involved with a single incident or issue during an RTCA.

NAME	TITLE	GEOGRAPHIC AREA	PHONE	EMAIL
Aviation Flight Standards - Division & Branch Chief				
Gene Bannister	Division Chief - Aviation Flight Standards	Lower 48 States	208-334-9309	gene_bannister@ios.doi.gov
