Schedule:

Next Meeting: Friday, 22 April, 1000-1100

1. Short-term Plan Update:

- Big picture - progressing according to plan, May 31 objectives looking good
- Eric Stevens from AK doing well, NWS support coming after through the rest of May, early June
- GTAC group communications (they host website). Good progress identifying tech issues, expect fully operational by end of April
- Ryan Tippetts - tactical data resource/tools - system went down, Ryan has been working it, expect it to be fixed by end of the month, but no guarantees...some challenges.
- Contingency planning to mitigate loss of capability--made Scott Bradshaw available from BIA and had discussions with Matt Jolly.

2. Survey Follow-Up:

- still waiting on USFS stance on sharing outside the agency (may not have same restrictions as DOI)
 - wanting something solid in writing to make sure we are good to go
- no feedback/corrections/additions for the survey
- call it a follow-up survey? Still value considering one was already done?
 - yes, need updated responses based on new tech, new roles
 - make sure we give the "why"
- Derrek will reach out to Kim Van Hemelryck or Jason Fallon on the OWF side to get their CIO take on sharing outside agency/department.
