### Schedule:

Next Meeting: Friday, 8 July 1000-1100

### 1. Short-term Plan Update:

USFS has operational control of fire danger system (WIMS)

NWCG is done with NFDRS transition and now resides in operations--unclear if there is a leadership group that has responsibility/control for NFDRS--a lot of uncertainty

New system is much more complicated/intricate--mistakes/neglect compound quickly

USFS sets priorities for how the WIMS technical team moves forward

Fire Danger Program Lead is a new position--unclear what the function is

Need to know who has ultimate responsibility/oversight within the USFS

FDSC likely to submit a memo with recommended path forward

This is part of the PSOG Long-term plan, so we need to start investigating, asking questions, see where we can help.

Will bring in key SMEs to next PSOG meeting to discuss this (Clint/Jen)

### 2. Survey Update:

331 responses, average time to complete is 13 minutes

Derrek will recirculate it weekly

## **3. Intel Subcommittee**

They reside under PSOG

Currently not producing anything, multiple meeting cancellations

Charter review in progress

Need guidance from PSOG--what should they be working on?

Have PSOG review charter, check with Chad/FMB, and then get them engaged in survey

PSOG taking on intel subcommittee - **Voted, Supported**

## **4. Roundtable:**

Jim - official integration of intel is great. Get STP AAR to key players in time for budget decisions and for recognition. Should we link Phil with Jim Karels for states inputs? Will loop states in via NMAC through Jim.

Phil - will send charter to intel committee for review and will send membership to PSOG.

Jennifer - NTR

Nick - will work with Derrek on AAR and get STP/LTP to Jennifer

Chuck - in preparation for Clint/Jen meeting - recommend each of us get ahold of FDSC rep and get a copy of NWCG and agency guidance on transition
