

National Wildfire Coordinating Group

Incident Business Committee

IBC Memo 23-07

DATE May 10, 2023

To: Geographic Area Incident Business Committees

From: Dave Burley, Chairperson, NWCWG Interagency Incident Business Committee

Subject: Request for Geographic Area S-260/261 Course Materials

The Incident Business Committee (IBC) discussed options for updating the 2014 version of the S-260/261 course work available online at the NWCWG website at our spring meeting in April. The overall opinion is to not re-invent curriculum when valid and up to date material is available.

We know several geographic area incident business committees have worked on and use locally created course work to teach S-260/261. The IBC would like to gather the different versions of the same course to create a new “national” course work. We plan to decommission the 2014 online course and work with NWCWG training to create a new version based on the course work from all the geographic area’s incident business committees.

If your incident business committee is willing to share your course work, please send it to both Saren Whitney at saren.whitney@usda.gov and Dave Burley at dburley@blm.gov.

This information can be found at: <https://www.nwcg.gov/committees/incident-business-committee/correspondence>. For questions, please contact your IBC representative.
