

## NATIONAL WILDFIRE COORDINATING GROUP

---

### National Coordination System Committee (NCSC) Memorandum 23-02

February 3, 2023

TO: Teresa Rose, Center Manager, Northern Forestry Dispatch Center  
FROM: National Coordination System Committee  
SUBJECT: Member Selection

Teresa,

Ray Crowe, Center Manager of the Alaska Interagency Coordination Center, recently nominated you to replace an out-going local state dispatch member representative to the National Coordination System committee (NCSC). At our annual face to face meeting on January 20<sup>th</sup>, the NCSC unanimously approved your nomination to the committee.

The NCSC provides national leadership to develop, disseminate, and promote national interagency standards and training for wildland fire resource mobilization/demobilization, resource statusing, incident information, and decision support. The NCSC meets monthly virtually and in person annually.

The NCSC's membership strives to be not only interagency, but also consist of individuals from all three tiers of the coordination system. The NCSC looks forward to having a new member to our group that will bring a fresh and diverse perspective from our local dispatch centers.

Congratulations on being selected to this committee!

Sincerely,

**SEAN  
PETERSON**

Sean Peterson  
Chair, NCSC

NWCG standards are interagency by design; however, the decision to adopt and utilize them is made independently by the individual member agencies and communicated through their respective directives systems.
