

National Wildfire Coordinating Group
National Interagency Aviation Committee

NIAC-20-03

Date: 18 May 2020
To: Leon Ben, Chair, Fire Management Board
From: Joel Kerley, Chair, National Interagency Aviation Committee
Subject: Request to the Interagency Cache System to help prevent the spread of Coronavirus disease (COVID-19)

The purpose of this memo is to request assistance via the Interagency Cache System to aid in the prevention of the Coronavirus disease (COVID-19) during the 2020 Fire Year.

The National Interagency Aviation Group (NIAC) is making a request to the Fire Management Board (FMB) for their assistance to work with the interagency cache system to stock supplies, as much as practicable, in preparation for the 2020 Fire Year. Additional supplies such as sterilizing cleaners and Center for Disease Control (CDC) recommended Personal Protective Equipment (PPE) would be put into helibase kits to be available to airbases for aviation staging: sterilizing cleaners and CDC recommended PPE. Further, these items would be requested during an incident or as requested through FEMA.
