

NATIONAL WILDFIRE COORDINATING GROUP

NIAC Memorandum 25-09

November 5, 2025

TO: Michael Froelich, Chair, Incident and Positions Standards Committee (IPSC)

FROM: Matt Woodwick, Chair, National Interagency Aviation Committee (NIAC)

SUBJECT: Update to Unmanned Aircraft System, Manager (UASM) Position

Issue/Action: To update the qualification requirements and progression pathway of the UASM position in the *NWCG Standards for Wildland Fire Position Qualifications*, PMS 310-1, based on analysis conducted during the Incident Performance and Training Modernization (IPTM) effort.

Specifically, this action would update the following position qualification standards:

- Add Required Training: RT-130, Wildland Fire Safety Training Annual Refresher (WFSTAR), S-230, Crew Boss (Single Resource), S-290, Intermediate Wildland Fire Behavior.
- Add Required Experience: Satisfactory performance as a Firefighter Type 1 Squad Boss (FFT1).
- Add Unmanned Aircraft System, Module Leader (UASL) to the list of These Positions Maintain Currency For UASM.
- Add Other Training Which Supports Development Of Knowledge And Skills: S-219, Firing Operations, S-260, Interagency Incident Business Management, S-270, Basic Air Operations.

Additionally, this action would require the following:

- Individuals qualified as a UASL will be granted qualification of UASM.
- Historical recognition will be applied to all currently qualified responders, with the exception of the annual requirement for RT-130 which all UASM responders will be required to complete to maintain qualification.

These updates would be made in the *NWCG Standards for the Wildland Fire Positions Qualifications*, PMS 310-1 and the *NWCG Wildland Fire Position Qualification Flowchart*, PMS 308.

Background: Through the IPTM analysis process, the NWCG National Interagency Aviation Committee has approved the change in the qualification pathways for UASM.
