The focus of this meeting was to recap the NAFA training. The remaining Unit updates will occur during the February IASOS meeting.

NAFA Unit

- The NAFA Unit implemented testing in NAFA 1.
- The cadre observed increased engagement from the students who were paying careful attention, studying, and taking notes throughout the duration of the training.
- The NAFA Unit appreciated the participation from OAS, USFS, BLM, etc. as observers of the training.
- The testing identified areas where additional attention should be given to. The topics that received the most missed questions will be a focal point during the briefings to the vendors.
- The rotation of the Federal and Industry Chairs will be offset to keep continuity.
