	Woody talked about making sure pre requisites are met and we are offering a A-205 please make sure that the other classes are done first. Please let others know they need to keep up their training.	

Tori/Woody	**INTERAGENCY AVIATION TRAINING GUIDE 2021 STATUS** • **EAS Approved –** The notes and high quality was good. EAS has no change requests. FS Letter - Forest Service no major issues as a whole and working on the FS Letter no time line yet but working to get ASAP.	
OAS TB Chief (W.Kessler) and FS-Tori? **Still work in Progress**	RFC course revision A-212 (aka A-207) Recommended IAT "Managers" to be required to take this course. Dave spoke with IATS we will revisit this next meeting. Tori wants to know who the class is intended for? Kirk – one-time requirement, will we grandfather students – yes, updates how will you get the approval out. Implementation 2022?	20-12

Milone (UAS)	UAS Instructors Vendor/Contractor DRAFT Roles and Responsibilities
	• DOI UAS Training roles

	    ○ IATS MEMBERS to REVIEW DOI UAS Training	

	Roles make comments (see link above). We will finalize it at this IATS meeting. • Propose an A-450 UAS working group that would report to the IATS. - FS needs to implement some language and wording. Working document in the meantime and we can review next call. Kirk- BLM approves, where will the policy be implemented OPM 11 or IAT guide? It will be referenced in OPM-11 – ultimately live in IAT Guide. Immediate intent is OPM-11 and find forever home in the IAT Guide. FS – OPM does not apply to them, but IAT guide does. All documents are electronic, so we just need to make sure changes are addressed. UAS- needs to modify A-450 so they would like to propose a working group that would be able to update the IATS on issues, problems, and follow up. FS is 100% on board with the idea. UAS wants to bring SME. Not sure if it would be an official group in IATS or just a group on the lines. Kirk- where will this curriculum be? IAT site? Proposal to work on one live document curriculum and can be updated easier. We need to dial in the core curriculum. They have contractors that will be delivering to the FS and giving results on expanding. Kirk – propose you have a task person and spokesperson be all Colin says- UAS Agency and Bureau to start and then maybe broaden later. Louise – Will the 450 be allowed to be taught outside of IAT? – Anybody who teaches 450 must be qualified to be an instructor and be signed off. Includes contractor people. Quality control once we contracted out how do we confirm the quality of training without be vetted. UAS will integrate into IAT even more.
