

IOSC Monthly Conference Call Notes – 4/6/21

1. Committee Update –

- IRPG Rough Draft submitted to NWCG Publications for formatting. LAL & Haines were included back into the IRPG. This was due to a lack of confirmation from the Fire Behavior committee that these would not be in the Fire Weather Forecasts for the 2022 field season and beyond.
- Request to eliminate 2 videos with outdated information about fuel geysering from S-212 came in to IOSC. Seemed pretty straight forward and went ahead and approved.

2. Review of IOSC Committee Charter – Sent out to have folks review and submit comments back on. IRPG revision section is a bit brief and will have a few more details added. Would like to have any comments back on this by April 30, 2021.

Call ended @ approximately 1015 MDT.

Next IOSC Conference Call- May 4, 2021 @ 1000 MDT
