

# IOSC Conference Call Notes – 10/5/21

CALL: TUESDAY, October 5 @ 1000 MDT

**On the call:** Reese Kerbow, Patrick Morgan, Ben Oakleaf, Marty Adell, Deb Fleming, Eric Franstead, Mike Black, Keith Mitchell, Troy Phelps

- 1. IRPG updates-** Final draft is in works. Updates to Flight Briefing did not cause any formatting issues so they were included after review by this committee. Final final draft should be ready soon and still on track for delivery to the GB Cache by January, 2022.
- 2. Leadership Levels for IOSC Positions-** Email back & forth about why leadership levels were set from 1 at the ICT5 level to 5 at the Area Commander level. This was because the levels aim towards the course level in the Leadership series. Broad overview of why this is being proposed is to tie the leadership courses, incident position descriptions and other job skills to specific qualifications.
- 3. General-** Deb Fleming was looking for a volunteer to help with reviewing position Standards & References website pages. Keith will get with Deb to assist with this. Additionally, there was a short discussion about finishing the committee processes finalized.

Call done at 1020.

Next conference call: November 2<sup>nd</sup>, 2021 @ 1000 MT
