Agenda with Notes

1. **IOSC Action Log Review/Update – Keith Mitchell**
   - IOSC - Action Log

2. **Tasking - IPSC_TM_2023-01_IOSC Evaluation of Operations Branch Director (OPBD) Qual Pathway and Transition to Complex – Keith Mitchell**
   - Need working group (2-3 people)
   - Review qualification requirements/pathways, Transition to CIM, Revise IDP, Assess need for position Task book, etc.
   - Documents - IPSC - TM-2023-01

   Notes
   - B, Monday, K, Mitchell will be part of the working group and will send email to see if we can get one more member of IOSC and will solicit feedback from IOSC members.
   - M, Black presented a power point with potential pathway. Working group will float at the Incident Management Remote Roundtable (IMRR) (2/22/2023) and get feedback.
   -

3. **Update - RFC TFLD PTB Requirements - Kyle West**
   Notes
   - Discussion needed among IOSC members, will be listed again on Agenda for March IOSC call
   Questions from members that were present:
   - Would this create a scenario where we have non-ICT4 qualified IHC Superintendents?
     - NWCG Standards for Wildland Fire Resource Typing, PMS 200 | NWCG
   - Does this effectively removing STCR (or other STxx positions) out of the operations hierarchy as proposed change would now allow opening a TFLD with two single resource boss quals (1 being CRWB or ENGB)?

- How does this proposal affect other resources outside of the crew (IHC) framework? Example BLM GS-8 Engine Captains that do not have ICT4?
- Would the proposed change have trickle down effects on other Position Taskbooks? *Example ICT4*
- Is this an opportunity issue (ICT4 training assignments) or a Red Card Committee problem that has made getting signed off at the ICT5 and ICT4 level too cumbersome?

4. **IRPG Revision Schedule (Tentative) – Patrick Morgan**
   Notes
   - Will be looking for 4-6 IOSC members to commit to IRPG 2025 update.
   - Request for update will go out to other committees June of 2023.
   - IOSC working group will begin review fall of 2023, with target date of getting to NWCG Publishing summer of 2024, and to the field in 2025.

5. **Update - NWCG Memorandum No. 23-002: 2023 Transition Plan for Complex Incident Management**
   Notes
   - Members should review as may have number of implications for IOSC as we work though the transition.
