    - NWCG working through Publication Process
  - [IPD Updates](#): None
  - DMOB Update(Robyn)
  - SCKN Pilot Project
    - Wanted to give IPS a heads up that NWCG is working on a new PTB format for future use. We are currently testing the format using CRWB trainees, and also will be conducting additional testing using SCKN and TIME trainees this summer. The intent is to gather feedback on the new format which will eventually go to IPSC for approval. Format changes include:
    - Proposed PTB format moves from a “yes/no” choice of marking off a task, to a rating of 1, 2 or 3.
    - The rating system gives rating officials more opportunity to provide feedback to the trainee.
    - The new format shows the Final Evaluator trends for strengths and areas of improvement over multiple assignments.
    - No content is changing at this point, format only.
    - In the future, specific Incident Position Standard (IPDs) statements will populate PTB content.
  - Additional Monthly Agenda Items from Rostered Members
