Brian Renner, HLCO, CalFire Rep (N)

GUESTS:

COMMENTS

AGENDA ITEMS

Topic: PMS 505 – Standards for Aerial Supervision

Presenter: Chris Tipton

Discussion/Considerations:

- BLM submitted several change requests, mostly grammatical fixes.
- HLCO-WG submitted revised change requests from prior requests.
- September is the deadline for the 2024 change request updates. Moving forward the PMS 505 is in maintenance mode. Any change requests received after September will be reserved for the 2025 publication, unless there are significant/urgent changes being requested.

Decision:

- New change changes will be emailed to Maria to add to the change tracker.
- Not all WG's agree with the proposed HLCO changes.
- The HLCO requests will be submitted to IASS tomorrow with a briefing on what has taken place. IASS will make the final decision.
