IROC update: Bill Fletcher/ Beth Spencer

Working on the material for IROC. There will be three levels of training.

3 levels:

1. Prerequisite with the youtube video : How to log in and the very basics of the program.
2. Basic level class: 2 ½ days which will be more hands on.
3. Advanced class:

Dates for training:

Beta Sept 4th starting on Wednesday in Boise. This Beta class will cover the prerequisite material and will be presented out to the dispatch community.

Oct 7th Train the Trainer: Looking for people from each GACC

Oct 22nd CDAT – prerequisite video will be presented

Practice available by November 2019

IROC Overview

IROC Home Page Top Banner

<https://www.youtube.com/watch?v=zvBMLHBQN88>

Only 2 training servers – Nancy Moore will be the contact for setting up time on the servers.

Deployment of the IROC program will be January 7,8,and 9, 2020

ROSS training will be shut down April 2020.

GATR updates: Kim Bang

Delivery of the D310 course, ROSS/IROC with discussion on how to move forward on the D310 course. Do we move forward for one more ROSS course before the shut down in April or how do we move forward for 2020?

Rock Mt, put on the IA/Aircraft course. Successful class. There are some things that need to be cleaned up in the material and this information will be pushed over to Jeff Walthers.

Expanded Recorder: Kim Karalus

The group is on track to start revamping the training during the winter of 2020. Looking to start in late January. May be looking for new Chair and new members.

Initial Attack and Aviation Dispatcher: Jeff Walthers (lead) and Megan Kephart

Putting the class on in R3 spring of 2020.

Will be looking for a new chair and new working group to update the scenarios. Looking to ensure that there will be representation from all GACCs to present an update that represents all aspects of the nation.

Expanded Dispatcher: Tim Bradley and Nicole Oke

All of the classes have been taught for FY 2019.

Some hiccups with one of the data bases. Specifically, on student #18. As the contract is going to expire April of 2020, not sure if we want to put a lot of effort in cleaning this up unless the scenario is something that can translate into the IROC.

Supervisory Dispatcher: Bill Fletcher

Nominations September or November. Jeff will find out more information and get back with this group next month.

Intel Support: Sean Peterson

GB has offered to host Nov 4th in Boise, ID.

Nominations will be due in Sept.

NWCG: Tim Blake

Moving away from the course name and moving toward the position name.

Example: From D110 to Expanded Dispatch Recorder. This will allow our groups to be named after the position. It is more important that we are teaching to what the job actually does, in order for students to be successful in the field when going out on assignments.

Passenger/Cargo Manifest form: Form has been sent to NCSC for final approval.

CDAT Update:

Date is set for October 2019 in Reno

IROC will be the center piece of this training.

MAC Training:

We put together a small working group. Looking at the old course work as a place to start. Will have an outline for this group to review by September 2019.
