<input type="checkbox"/> Information <input checked="" type="checkbox"/> Discussion <input type="checkbox"/> Decision <input type="checkbox"/> Training	<b>Topic: – Night Flying Operations – Continued Discussion</b> <b>Intended Outcome:</b> <b>Associated Document(s):</b>	Request to update policy should flow from local/state agency to the NASF NIAC rep, to NIAC for discussion. USFS and BLM – decision to conduct NVG ops should be left to the individual agency to determine if the risk is worth the flying the mission. CalFire – they have control factors in place to determine if the risk is worth the reward. OAS – asked if minimum standards are in place to conduct NVG ops, CalFire relayed that there are minimum standards. USFS – their operations plan covers this, and Firescope is probably the best document to cover this. BIA- believes we will see more requests to conduct night ops. NIAC – thinks FMB should be briefed on this topic so that individual agencies can determine if they want to allow night ops.
<input type="checkbox"/> Information <input checked="" type="checkbox"/> Discussion <input type="checkbox"/> Decision <input type="checkbox"/> Training	<b>Topic: – NIAC Chair Rotation Discussion</b> <b>Intended Outcome:</b> <b>Associated Document(s):</b>	NPS – will be rotating from Chair 12/31/22. Asked who is next? NPS – understanding is the rotation has moved from BLM to USFS, to BIA to NPS. Doesn't

		believe that OAS or NASF rep serve as chair, so that leaves the five Federal members to rotate. BIA – FWS has only served once in the last 15 years. FWS member was not on the call, so the FWS employee relayed to the FWS chair what was discussed. NPS – believes there is not set rotation according to NWCG. Wants to get a member selected so that a transition can occur. Will be discussed next meeting.
