Anne Jewell	X	Barbara Geringer		James Christian	X	Kristen Corkins	
Hank Rowland	X	Brent Ruggles	X	Mike Rubenstein	X	Heath Cota	
Shawn Nagle	X	Joe Sean Kennedy	X	Gordy Sachs	X		

Discussion and Updates

Adjudicated comments regarding the term “Incident Complex” and its business rule; provided recommendations.

Incident Complex Proposed Business Rules –

1. Child records must meet large fire criteria specific to incident size to be included in an incident relationship within an incident complex. Child records must be at least 100 acres in timber or 300 acres in grass brush to be added to an Incident Complex.
 - o **NIMISC does not support (too limiting and doesn't allow needed agency discretion).**
3. Wildfire (WF) records that are Human Caused shall not be added to an Incident Complex.
 - o *Per Kara Stringer: Recommended business practice, but IRWIN will not use this criterion to validate.*
 - o **NIMISC will accept with changing “shall” to “should” to recognize ambiguity of individual situations and agency decisions.**
4. Child records may only be in one Incident Complex at a time.
 - o **NIMISC supports.**

Discussed NWCG Annual Meeting.
