Action Items

Wildfire and smoke activity round robin

- Lot of ARAs out with wildfires in CA OR, very high smoke exposure in OR. 1000 fuels contributing to a lot of smoke in the west CO also experiencing fires.
- Been a challenge to get enough ARAs. Primary concern at this stage is physical safety.
- Cache manager is working to get the monitors where they are needed.
- Potential for dry fuel conditions in the east in the next two months, so this could lengthen fire season
- Satellite fire detection is underscoring the unprecedented extent of fires in the west currently, 1000's or 100,000s of detects.

Next Call – Sept. 24, 2020
