

Combustible Materials Descriptor

Status: Approved

Description

Identifies combustible materials found near structure during assessment.

Identity & Classification

Label	Combustible Materials Descriptor
Data Element Type	String Data Element
Approval Status	Approved

Format Specification

Data Exchange	
Data Exchange Name	CombustibleMaterials
Alternate Data Exchange Name	CombustibleMaterialsAgainstHouse
Format	X(25)
Max Length	25
Physical Data Type	ALPHANUMERIC
Example	light flashy fuels

Geospatial Attribute

Attribute Name	CombustibleMaterialsAgainstHouse
Size/Width	25
Physical Data Type	STRING
Example	firewood

Permissible Values

Permissible Values for Combustible Materials Descriptor

Label
none
firewood
light flashy fuels
shrubs
trash
trees
multiple items above

For data exchange, use the Label value (e.g., 'none').
