

Discovery Fire Size

Status: Approved

Description

An estimate of acres burning upon the discovery of the fire.

Business Rules

1. The estimate of acres from when the fire is first reported by the first person that calls in the fire.
2. The estimate should include number of acres within the current perimeter of a specific, individual incident, including unburned and unburnable islands.
3. As a minimum, fires less than one acre will be reported to the hundredth of an acre.
4. As a minimum, fires greater than one acre will at least be reported to the nearest acre.
5. Required by CAD on Submit and Update for Incident Type Category of "WF" and Incident Type Kind of "FI".
6. Must be at least 0.01.
