

Fire Strategy Percentage

Status: Grandfathered

Description

Percentage value representing the position of a user-set slider bar, on a scale from Monitor (0%) to Suppression (100%), to indicate the fire strategy decision selected during the analysis; the general plan or direction to be utilized.

Business Rules

1. Common strategies include Monitor, Confine, Contain, Point/Zone Protection, and Suppression, but hybrids and novel strategies may also be developed as the situation demands.
2. One or more strategies may be employed on any given wildfire. The strategy or strategies being employed may vary temporally or spatially.
3. When documented as percentage, the sum must be 100.
