Permissible Values

Permissible Values for Fitness Level Code *(continued)*

Label	Code	Definition
Arduous	A	Arduous duty field work requires above-average endurance and superior conditioning. Duties may include an occasional demand for extraordinarily strenuous activity in emergency situations under adverse environmental conditions over extended periods. The pace of work typically is set by the emergency condition. Essential functions include, but are not limited to: running, walking or hiking, climbing, jumping, twisting, bending, lifting more than 50 pounds, and carrying 45 pounds or more for extended periods over difficult terrain.
Moderate	M	Moderate duty field work requires the average endurance and conditioning of an individual who possesses complete control of all their physical faculties. Occasional demands may be required for moderately strenuous activities in emergencies over long periods. The pace of work is usually set by the current environmental conditions. Essential functions include, but are not limited to: considerable walking over irregular ground, standing for long periods, lifting 25 to 50 pounds, climbing, bending, stooping, squatting, twisting, and reaching.
Light	L	Light duty mainly involves office-type work with occasional field activity characterized by light physical exertion requiring basic good health. Individuals almost always can govern the extent and pace of their physical activity. Essential functions include, but are not limited to: climbing stairs, standing, operating a vehicle, and long hours of work, as well as some bending, stooping, or light lifting.
None Required	NR	No physical fitness requirements.

For data exchange, use the Code value (e.g., 'A').
