

Frequency Use Designator

Status: Approved

Description

A description of the kind of communications that will occur on an assigned radio frequency.

Identity & Classification

Label	Frequency Use Designator
Data Element Type	String Data Element
Applies To	Frequency
Required for Add	Yes
Approval Status	Approved

Format Specification

Data Entry	
Format	X(33)
Physical Data Type	CHARACTER
Example	Air-to-Air FM

Data Exchange	
Data Exchange Name	FreqUseDesignator

Format	X(4)
Length	4
Physical Data Type	ALPHANUMERIC
Example	FQAA

Additional Rules

Case Sensitivity	Mixed case allowed
-------------------------	--------------------

Permissible Values

Permissible Values for Frequency Use Designator

Label	Approved Label	Code
FQAA - Air-to-Air AM	Air-to-Air AM	FQAA
FQAG - Air-to-Ground FM	Air-to-Ground FM	FQAG
FQCM - Command	Command	FQCM
FQDE - Deck	Deck	FQDE
FQFF - Air-to-Ground AM - Flight Following	Air-to-Ground AM Flight Following	FQFF
FQFM - Air-to-Air FM	Air-to-Air FM	FQFM
FQTA - Tactical	Tactical	FQTA
FQTL - Takeoff and Landing AM	Takeoff and Landing AM	FQTL
FQTO - Takeoff and Landing FM	Takeoff and Landing FM	FQTO
FQUH - UHF Link	UHF Link	FQUH

For data entry, use the Approved Label value (e.g., 'Air-to-Air AM'). For data exchange, use the Code value (e.g., 'FQAA').
