

Geographic Area Name (POD) (line)

Status: Approved

Description

The Geographic Area the POD line is within. This field can be used to filter a National-level POD line dataset to specified Geographic Area(s). In cases where a POD line overlaps two Geographic Areas, select the Geographic area based on desired filtering results.

Identity & Classification

Label	Geographic Area Name (POD) (line)
Data Element Type	String Data Element
Approval Status	Approved

Format Specification

Data Entry	
Format	X(20)
Max Length	20
Physical Data Type	CHARACTER
Example	Northwest

Data Exchange	
Data Exchange Name	GAName

Alternate Data Exchange Name	GeoArea
Format	X(20)
Max Length	20
Physical Data Type	ALPHABETIC
Example	Northwest

Geospatial Attribute	
Attribute Name	GeoArea
Size/Width	20
Physical Data Type	STRING
Example	Alaska

Additional Rules

Case Sensitivity	Mixed case allowed
-------------------------	--------------------

Permissible Values

Permissible values for Geographic Area Name (POD) (line)

Alternate Label	Label	Code
Alaska	Alaska Area	AK
California	California Area	CA
Eastern Area	Eastern Area	EA
Foreign	Foreign Area	FO
Great Basin	Great Basin Area	GB

Alternate Label	Label	Code
National	National Area	NA
Northern Rockies	Northern Rockies Area	NR
Northwest	Northwest Area	NW
Rocky Mountain	Rocky Mountain Area	RM
Southern Area	Southern Area	SA
Southwest	Southwest Area	SW

For data exchange, use the Alternate Label value (e.g., Northwest).
