

Operational Name

Status: Approved

Description

The current common operational reference to a resource, the name of the resource and/or call sign.

Business Rules

1. Aircraft: IRWIN will add and update based on Call Sign.
2. Crew: IRWIN will add and update based on Group Name. If National Resource = True and Capability Type = Type 1, IRWIN will add IHC to the end of the Group Name. (Type represents the current filled request for that resource).
3. Equipment: IRWIN will add and update based on Capability Type. Type, Capability Type, Category, and Apparatus Number (Type and Category represent the current filled request for that resource).
4. Overhead: IRWIN will add and update based on First Name, Last Name, and Middle Name (if available).
5. Team, Module: IRWIN will add and update based on Group Name.
6. This value will be updated for equipment, crews, modules, and teams based on how the resource is currently being utilized through a filled request.
