

Tactics (FIREScope)

Status: Approved

Description

Strategy and Tactics per FIREScope.

Identity & Classification

Label	Tactics (FIREScope)
Data Element Type	String Data Element
Approval Status	Approved

Format Specification

Data Exchange	
Data Exchange Name	FIREScopeTactics
Format	X(50)
Max Length	50
Physical Data Type	ALPHABETIC
Example	Anchor and Hold

Geospatial Attribute	
Attribute Name	FIREScope Tactics
Size/Width	50

Physical Data Type	STRING
Example	Bump and Run

Permissible Values

Permissible values for Tactics (FIREScope)

Label	Definition
Anchor and Hold	A tactic utilizing control lines and large water streams from fixed water supplies in an attempt to stop fire spread.
Bump and Run	A tactic where resources typically move ahead of the fire front in the spotting zone to extinguish spot fires and hot spots, and to defend as many structures as possible.
Check and Go	A rapid evaluation to check for occupants requiring removal or rescue.
Connect the Dots	Resources assigned to structure defense operations effectively stop forward fire spread in a particular area, which then becomes a "dot" in the overall perimeter control effort.
Fire Front Following	A follow up tactic employed when Check and Go, Prep and Go, or Bump and Run tactics are initially used.
Prep and Defend	A tactic used when a Safety Zone and TRA are present and adequate time exists to safely prepare a structure for defense prior to the arrival of the fire front.
Prep and Go	Implies that some preparation of the structure may be safely completed prior to resources leaving the area.
Tactical Patrol	A tactic where the key element is mobility and continuous monitoring of an assigned area.

For data exchange, use the Label value (e.g., Anchor and HoLd).
